

INTEGRATION WITH ORACLE AQ

Publishing AQ messages to Oracle AQ

Consuming messages from Oracle AQ

Created by Mohammed Nadeem

KEY ATTRIBUTES FOR PUBLISHING MESSAGES

- `GenerateFlowFile`: Creates AQ payload to be sent
- `PublishAQ`: Publishes messages to Oracle AQ queue
- `PutFile`: MessageID is written upon success otherwise error written causing the failure

KEY ATTRIBUTES FOR SUBSCRIBING MESSAGES

- `ConsumeAQ`: Listens for messages from AQ queue by periodically polling it
- `PutFile`: Consumed messages will be routed to success

NOTES

- *Use this template for publishing and consuming Oracle AQ stream messages.*
